

Mrs. Robin's Easter Coronavirus Mad Lib

It was the year 2020. My _____ (member of family) and I had been quarantined in our house for _____ (number) days. It was getting _____ (adjective) out there. People were starting to _____ (verb) more and they were not allowed to go to the _____ (place-plural) anymore. People were getting so _____ (emotion) that they were buying up all the _____ (item in grocery store-plural) in the grocery stores! I was _____ (verb/emotion-past tense) that the Easter Bunny wouldn't be able to _____ (verb) to my house because of social distancing. So, I decided that I needed to contact him somehow. I _____ (verb-past tense) a _____ (noun) with a _____ (adjective) message to him. I needed him to know that he would be _____ (adjective) at my house because I had been really good at _____ (verb+ing) my _____ (body part or parts), keeping my hands away from my (body part) and staying home-away from _____ (noun-plural).

I was hoping he got my message, but I was _____ (adjective). I waited for _____ (number) days, and finally Easter came! I woke up at _____ (time) in the morning to see. I was _____ (verb/emotion +ed) to see that he had left a _____ (**noun**) on the _____ (piece of furniture) in my _____ (room of your house)! This _____ (**same noun just used**) had _____ (number bigger than 1) _____ (noun-plural) in it and a giant _____ (noun) made of chocolate! I was so happy that I _____ (verb-past tense) around my house laughing! Even the Coronavirus couldn't keep the Easter Bunny away! He was as brave as all the other first responders and important people that go to work so I can be safe.

You can try this with other friends over the phone! You could also make your own Mad Lib now! 😊
