

## Bird Sounds

## Bird Sounds 2 Track

These are the birds that I hear (in order of their sounds) on track 2!

1. Woodpecker-could be a Red-Bellied, a Downey or a Hairy-cannot see to tell
2. You hear a Northern Cardinal chirping in between the wood pecks.
3. Blue Jays-they are making 2 of their MANY different sounds here
4. Crows
5. Catbird-making one of their 40 sounds. (I think!)
6. More Blue Jays
7. Red-Bellied Woodpecker trilling in background as well
8. A duck-cannot see to tell for sure
9. The chirping at end could be many birds, such as a chickadee, a titmouse, a sparrow, a House or Golden Finch, or a Robin
